Home Builds Benefiting Veterans

The **Tradesmen for Troops** project is an opportunity for tradespeople, subcontractors and suppliers to leverage their skills and resources. By donating or discounting labor and materials, they bring down the building cost of the project. When it is sold, a portion of the proceeds will benefit Pain Free Patriots, a 501(c)(3) nonprofit which funds medical grants for treatment of chronic pain in Veterans and military service members. Pain Free Patriots has coordinated treatment of more than 600 Veterans, over 90% of whom report significant, lasting relief from their pain.
